

§ 137.75

shall maintain and keep current, at the home base of operations designated in his application, the following records:

(1) The name and address of each person for whom agricultural aircraft services were provided;

(2) The date of the service;

(3) The name and quantity of the material dispensed for each operation conducted; and

(4) The name, address, and certificate number of each pilot used in agricultural aircraft operations and the date that pilot met the knowledge and skill requirements of § 137.19(e).

(b) The records required by this section must be kept at least 12 months and made available for inspection by the Administrator upon request.

§ 137.75 Change of address.

Each holder of an agricultural aircraft operator certificate shall notify the FAA in writing in advance of any change in the address of his home base of operations.

§ 137.77 Termination of operations.

Whenever a person holding an agricultural aircraft operator certificate ceases operations under this part, he shall surrender that certificate to the FAA Flight Standards District Office last having jurisdiction over his operation.

PART 139—CERTIFICATION AND OPERATIONS: LAND AIRPORTS SERVING CERTAIN AIR CARRIERS

Subpart A—General

Sec.

139.1 Applicability.

139.3 Definitions.

139.5 Standards and procedures for compliance with the certification and operations requirements of this part.

Subpart B—Certification

139.101 Certification requirements: General.

139.103 Application for certificate.

139.105 Inspection authority.

139.107 Issuance of certificate.

139.109 Duration of certificate.

139.111 Exemptions.

139.113 Deviations.

14 CFR Ch. I (1-1-01 Edition)

Subpart C—Airport Certification Manual and Airport Certification Specifications

139.201 Airport operating certificate: Airport certification manual.

139.203 Preparation of airport certification manual.

139.205 Contents of airport certification manual.

139.207 Maintenance of airport certification manual.

139.209 Limited airport operating certificate: Airport certification specifications.

139.211 Preparation of airport certification specifications.

139.213 Contents of airport certification specifications.

139.215 Maintenance of airport certification specifications.

139.217 Amendment of airport certification manual or airport certification specifications.

Subpart D—Operations

139.301 Inspection authority.

139.303 Personnel.

139.305 Paved areas.

139.307 Unpaved areas.

139.309 Safety areas.

139.311 Marking and lighting.

139.313 Snow and ice control.

139.315 Aircraft rescue and firefighting: Index determination.

139.317 Aircraft rescue and firefighting: Equipment and agents.

139.319 Aircraft rescue and firefighting: Operational requirements.

139.321 Handling and storing of hazardous substances and materials.

139.323 Traffic and wind direction indicators.

139.325 Airport emergency plan.

139.327 Self-inspection program.

139.329 Ground vehicles.

139.331 Obstructions.

139.333 Protection of nav aids.

139.335 Public protection.

139.337 Wildlife hazard management.

139.339 Airport condition reporting.

139.341 Identifying, marking, and reporting construction and other unserviceable areas.

139.343 Noncomplying conditions.

AUTHORITY: 49 U.S.C. 106(g), 40113, 44701-44706, 44709, 44719.

SOURCE: Docket No. 24812, 52 FR 44282, Nov. 18, 1987, unless otherwise noted.

Subpart A—General

§ 139.1 Applicability.

This part prescribes rules governing the certification and operation of land airports which serve any scheduled or

unscheduled passenger operation of an air carrier that is conducted with an aircraft having a seating capacity of more than 30 passengers. This part does not apply to airports at which air carrier passenger operations are conducted only by reason of the airport being designated as an alternate airport.

§ 139.3 Definitions.

The following are definitions of terms as used in this part:

AFFF means aqueous film forming foam agent.

Air carrier means a person who holds or who is required to hold an air carrier operating certificate issued under this chapter while operating aircraft having a seating capacity of more than 30 passengers.

Air carrier aircraft means an aircraft with a seating capacity of more than 30 passengers which is being operated by an air carrier.

Air carrier operation means the takeoff or landing of an air carrier aircraft and includes the period of time from 15 minutes before and until 15 minutes after the takeoff or landing.

Airport means an area of land or other hard surface, excluding water, that is used or intended to be used for the landing and takeoff of aircraft, and includes its buildings and facilities, if any.

Airport operating certificate means a certificate, issued under this part, for operation of an airport serving scheduled operations of air carriers.

Average daily departures means the average number of scheduled departures per day of air carrier aircraft computed on the basis of the busiest 3 consecutive months of the immediately preceding 12 calendar months; except that if the average daily departures are expected to increase, then "average daily departures" may be determined by planned rather than current activity in a manner acceptable to the Administrator.

Certificate holder means the holder of an airport operating certificate or a limited airport operating certificate, except that as used in subpart D "certificate holder" does not mean the holder of a limited airport operating certificate if its airport certification

specifications, or this part, do not require compliance with the section in which it is used.

Heliport means an airport or an area of an airport used or intended to be used for the landing and takeoff of helicopters.

Index means an airport ranking according to the type and quantity of aircraft rescue and firefighting equipment and agent required, determined by the length and frequency of air carrier aircraft served by the airport, as provided in subpart D of this part.

Limited airport operating certificate means a certificate, issued under this part, for the operation of an airport serving unscheduled operations of air carriers.

Movement area means the runways, taxiways, and other areas of an airport which are used for taxiing or hover taxiing, air taxiing, takeoff, and landing of aircraft, exclusive of loading ramps and aircraft parking areas.

Regional Airports Division Manager means the airports division manager for the FAA region in which the airport is located.

Safety area means a designated area abutting the edges of a runway or taxiway intended to reduce the risk of damage to an aircraft inadvertently leaving the runway or taxiway.

Wildlife hazard means a potential for a damaging aircraft collision with wildlife on or near an airport. As used in this part, "wildlife" includes domestic animals while out of the control of their owners.

[Doc. No. 24812, 52 FR 44282, Nov. 18, 1987; 53 FR 4258, Feb. 12, 1988, as amended by Amdt. 139-16, 54 FR 39295, Sept. 25, 1989]

§ 139.5 Standards and procedures for compliance with the certification and operations requirements of this part.

Certain requirements prescribed by subparts C and D of this part must be complied with in a manner acceptable to the Administrator. FAA Advisory Circulars contain standards and procedures that are acceptable to the Administrator for compliance with subparts C and D. Some of these advisory circulars are referenced in specific sections of this part. The standards and procedures in them, or other standards
